

WÜRTH OLIVER H. VAN HORN SUPPLIER LINE CARD

MEMBER OF THE
WÜRTH  GROUP

Würth Oliver H. Van Horn has over 115 years in metal working experience, starting from our beginnings in 1903 based out of our home office in New Orleans.

Starting as a family business at a single location, we're still focused in turn of the century manufacturing supply and have developed into a world class metal working group. Our team has a combined 200 years fabrication and metal working experience in a wide variety of industries. We utilize our highly technical metal working experts to offer a complete process solution with industry leading VMI technology for a total cost reduction within your manufacturing facility.

OUR CAPABILITIES

Würth Oliver H. Van Horn has been providing vending solutions, as well as integrated supply since 1997. We offer some of the leading carbide tooling and metal working products in the industry from manufacturers:

Mitsubishi, Kennametal, IMCO, SGS, Dormer Pramet, Allied Machine and Engineering, and Iscar Metals.

Our highly trained personnel work alongside production engineers, shop leads and the cutting tool manufacturers to document these savings and present it to local management. We provide technical support on all metal working applications. We also invest the time to gain a better understanding of the customers' metal working needs and offer innovative solutions to meet those specific applications, while saving them process costs.

FASTER, SAFER, BETTER.

On the job, a welder's reputation is only as good as their last weld. For three-quarters of a century, Weiler's abrasives and brushes have been trusted on the most critical welds. Whether you're cutting, grinding or cleaning, Weiler Abrasives will get it done.
